Facts & Figures

CV. Multi Rempah Sulawesi (MRS) processes and exports high-quality spices sourced primarily from Sulawesi and the Molucca islands, Indonesia. Founded in 2001, MRS has continually expanded its operations and now collaborates with more than 5000 smallholder farmers, working approximately 4000 hectares.

Products & Services

MRS supplies nutmeg, mace, cloves, clove stems, white and black pepper, white and red ginger, and cashew nuts to Japan, the Netherlands and Germany. The company facilitates good harvest and post-harvest practices, including organically certified processing, careful packing in polypropylene and gunny bags, and monitored shipping.

Mission & Vision

MRS aims to continually strengthen its relationship with farmers to distribute premium-quality organic spices.

Facts & Figures

Navil Natural is a company involved in supply management, production, and distribution of food ingredients. Navil Natural is engaged in building an integrated and sustainable supply chain, responding to market trends in order to empower stakeholders, and adding value to products for wide acceptance on the international market.

Products & Services

Navil Natural manages an integrated supply chain that distributes organic and natural food ingredients to consistently meet market expectations. Through continuous efforts to innovate, the company has improved efficiency and safety in its operations, and delivers high-quality products at competitive prices to the market.

Mission & Vision

The company strives to maximize the potential of Indonesia's natural and human resources (including farmers and small producers), by integrating these into the international market through a system of sustainable supply chains, supported with effective management and continuous quality improvement. Navil Natural is also engaged in building awareness among stakeholders of the importance of the sustainability concept, which leads, not just to continuous economic growth, but also to conservation of natural, social and cultural resources.

PT. BUKIT SARI
SIPPO Pavilion: Hall 4 | Booth 4-111

Facts & Figures

Bukit Sari Tea Plantation is an Indonesian heritage tea plantation, established during the colonial era and sustained until today. The company's first goal is to produce superior, healthful tea for everyone. For this reason Bukit produces purely organic teas.

Products & Services

Bukit Sari Tea Plantation offers black, green and white teas. Recently, they created a new herbal tea infused with local organic Indonesian spices.

Mission & Vision

By developing superior products Bukit hopes to become "Ambassador for Organic and Sustainable Farming" in Indonesia and beyond, and to create a natural agricultural landscape with integrated organic farming practices and management systems.

CERTIFICATION
Organic (EU, JAS, USDA), Halal

Facts & Figures

PT. Harendong Green Farm is an organic-certified tea farm and tea processor committed to producing the highest quality organic tea. The company was established in 2006 and has been organic-certified according to EU, USDA and JAS standards by the Institute for Marketecology (IMO) since 2010. The farm is located close to Gunung Halimun Salak National Park, about 1000 meters above sea level: far away from industrial estates and free of air pollution. Mild climate, clean water and clear air provide a favorable environment for growing healthy tea plants.

Products & Services

In order to guarantee good flavor, pleasing aroma and health benefits for tea drinkers, only the top three leaves are picked from the highest grade, hand-picked *Camellia sinensis* var. *sinensis* plants for PT. Harendong Green Farm's Organic Green Tea, Organic Oolong Tea and Organic Red/Black Tea.

Mission & Vision

PT. Harendong Green Farm is committed to implementing eco-friendly organic farming methods and empowering the surrounding community through development. On the tea farm, seedlings and plants are grown organically, so that customers can enjoy a better quality tea. The company has also encouraged villagers living around the farm to cultivate their crops with organic rather than conventional methods. PT. Harendong Green Farm aims to provide the highest quality organic tea and the best service possible to their customers.

PT. MEGA INOVASI ORGANIK
SIPPO Pavilion: Hall 4 | Booth 4-111

Facts & Figures

PT. Mega Inovasi Organik, under the brand name “Menoreh”, manufactures organic coconut products in Indonesia. Established in 2011 with a headquarters in Jakarta, the company works with approximately 2500 farmers in various regions of Indonesia.

Products & Services

PT. Mega Inovasi Organik produces organic coconut sugar and organic VCO for bulk trading, private label, and the company's retail brand. The production capacity is 70 tons per month for coconut sugar and 20 tons per month for VCO. The “Menoreh” product range includes organic coconut sugar (250- and 500-gram packages) and organic VCO (500-gram jars).

Mission & Vision

To improve farmers' quality of life, PT. Mega Inovasi Organik maintains mutually beneficial business practices and economic balance with their farmers in line with fair trade values and Corporate Social Responsibility (CSR) programs. The Internal Control System implemented by the company guarantees the highest quality, consistency, and traceability of their products for customers.

CERTIFICATION

Organic (EU, USDA)

Facts & Figures

PT. Sumatran Organic Spice (SOS) has developed an extensive network of important stakeholders in the spice trade within Indonesia, as well as North America, Europe and other countries. Specifically, PT. SOS is committed to the organic spice business as a way of empowering local farmers through implementing sustainable growing methods within the company's main sourcing areas, such as Sumatra and Java.

Products & Services

PT. SOS has grown steadily into a trusted company through its business operations at its base in Jakarta, Indonesia. Since their main objective is marketing agro commodities from Indonesia, the company provides assistance to farmers' cooperatives and processors in order to develop high-quality products for the international spice market. PT. SOS also promotes soil conservation and erosion control methods, including contour planting, selective harvesting, terracing and reforestation, while recognizing the history of the spice trade: its origins, culture and people.

Mission & Vision

PT. SOS believes in fairness on three levels. This means "Fairness to the earth" [the company gives back what it receives by promoting organic farming practices]; "Fairness to farmers" [they support farmers by sharing knowledge and profits]; and "Fairness to consumers" [they provide only the best products by maintaining strict quality controls].

SOUTH AFRICA

ALOWAY NATURAL HEALTH PRODUCTS PTY LTD. SIPPO Pavilion: Hall 4 | Booth 4-111

Facts & Figures

Aloway Natural Health Products is situated on a fertile 40-hectare plantation in rural Vivo, deep in the province of Limpopo, South Africa, where conditions are ideal for cultivating aloe plants. When Aloway began cultivation in 2008, the company reached out to the local community for its workers.

CERTIFICATION

Organic (EU, USDA), Halal, Kosher

Products & Services

The company's premium product range consists of liquid, powder and solid ingredients for a wide variety of applications and industries, including nutraceuticals, pharmaceuticals, herbal remedies, food and beverages and cosmetics, as well as personal care and animal health products. Aloway currently produces 400 000 liters of pure aloe vera gel annually. The company also offers a range of bulk skincare formulations for private labelling, as well as a retail skincare product line trading under the brand name Curaloe™.

Aloway follows GAP organic cultivation methods and utilizes only organic fertilizers, which are guaranteed to be pesticide-, herbicide- and germicide-free. Aloway's products undergo independent NMR Spectroscopy analysis by a recognized German laboratory, Spectral Services GmbH, which confirms the highest quality standards worldwide.

Mission & Vision

Aloway is creating awareness and inspiring hope for a healthy future as a part of its dynamic company philosophy. By promoting job creation, education and training, Aloway endeavors to establish a new self-sustaining, economically independent agricultural industry in South Africa.

PRODUCTS

Baobab Powder, Baobab Oil

CERTIFICATION

Organic (EU), Kosher

Products & Services

Organic baobab powder is made from baobab fruit. It is a naturally dried powder with a sweet-tangy taste. Baobab is categorized as a superfruit. It is consumed alone as a fruit or as an ingredient in health bars, beverages, ice creams and baked goods. It has high concentrations of vitamin C, calcium, magnesium, potassium and dietary fiber. It is known for its antioxidant and prebiotic properties.

Organic baobab oil is made from cold-pressed baobab seeds. It is a triglyceride fat which is liquid at room temperature.

Baobab oil is used in cosmetic products as an emollient, and as skin and hair conditioner. It is an excellent moisturizer, known not to clog pores due to its small molecule size. It contains high concentrations of omega-3, -6 and -9 fatty acids.

Mission & Vision

The EcoProducts vision is to make a meaningful contribution to the livelihoods of rural people and to the conservation of baobab trees.

Products & Services

Highland Essential Oils supplies 100 % natural oils and concretes to the cosmetics, culinary, pharmaceutical, fragrance and industrial markets, at national and international levels. In January 2015, Highland Essential Oils started a new company in Zambia, "Natural Oils Zambia", where they produce cold-pressed Manketti and Moringa oils. They are also beginning a distillation unit for geranium and tropical oils.

Mission & Vision

Highland strives to farm in partnership with nature to build a sustainable future. All waste material is converted to compost in the composting plant and used in the organic field as fertilizer and compost tea spray. To guarantee that their products are of consistently top quality, ensuring customer satisfaction, Highland Essential Oils continuously seeks to improve every aspect of their business, maintaining a commitment to product safety and integrity in their service.

SKIMMELBERG (PTY) LTD.
SIPPO Pavilion: Hall 4 | Booth 4-111

Facts & Figures

Skimmelberg is a family-owned company rooted in the local community with extensive experience gained over generations in the production of buchu and rooibos products.

As both growers and processors of their own produce, the company can ensure the highest standards throughout the entire production process, and takes pride in the outstanding quality of its products. The company firmly believes in biodiversity-friendly farming methods, and is actively promoting sustainable practices.

Products & Services

Skimmelberg is a producer and exporter of bulk, as well as packaged, organic buchu teas, buchu leaf, buchu powder, buchu tea bag cut, rooibos teas, rooibos espresso and rooibos powder. The company also does blended teas and contract packaging, along with producing and exporting essential oils.

Mission & Vision

Skimmelberg has adopted environmentally-friendly farming and production practices, working in harmony with nature by making use of its natural resources. Skimmelberg defines its mission as providing the customer with high-quality products and superior, loyal service.

SIPPO Pavilion: Hall 4 | Booth 4-111**

Facts & Figures

Veld Botanicals is located on the eastern coast of South Africa and has been involved in the growing and distillation of essential oils since 2001. The company controls the entire production process, from growing the crops on its two farms to distilling the oil. Veld Botanicals is therefore able to offer clients a reliable supply of consistently high-quality oil from their modern distillation facilities.

Essential oils and Hydrosols:
Eucalyptus, Lemongrass,
Lemon-Scented Tea Tree, Niaouli,
Rose Geranium, Rosemary,
Tea Tree (*Melaleuca Alternifolia*),
Thyme

CERTIFICATION
Organic (EU, USDA)

Products & Services

Veld Botanicals grows, processes and markets a range of certified organic essential oils for the flavor and fragrance industry, and operates at both national and international levels. The company supplies its oils in both 23-kilogram fluorinated HDPE drums and 180-kilogram epoxy-lined steel drums. Veld Botanicals is strategically located near two major ports and King Shaka International Airport, Durban, which facilitates fast and efficient delivery.

Mission & Vision

Throughout its production cycle, from farm to shelf, Veld Botanicals strives to minimize environmental impact by using sustainable techniques. The company works closely with clients to ensure consistent service and enduring relationships. Veld Botanicals also provides employment opportunities in an impoverished area of South Africa and supports a number of community-based essential oil growers.

PROCOLOMBIA

Colombia Pavilion: Hall 2 | Booth 2-523

PROCOLOMBIA is the organization in charge of fostering non-traditional exports, attracting direct foreign investment and promoting Colombia as an international tourist destination.

Through our national and international office network, we provide support and comprehensive assistance to national entrepreneurs, through offering services with the aim of facilitating the design and execution of its internationalization strategy, seeking the generation and tracking of business opportunities.

We foster international business through the identification of market opportunities, the design of strategies of opening up new markets, the internationalization of companies, assistance in the design of action plans, contact between entrepreneurs in sales promotion, investment and international tourism activities.

Participating in some of the most important trade fairs, such as Biofach in Nuremberg, is part of the strategy aiming to support the expansion of Colombia's organic sector on international markets.

Facts & Figures

C.I. VidFruit is a consolidated Colombian company with more than 15 years of experience in the fruit processing industry, which specializes in processing exotic fruits. The company develops, produces and distributes its products under company and client brands, both nationally and internationally. The company is currently expanding and internationalizing: VidFruit is now looking for strategic partners with whom they can work to achieve common goals.

Products & Services

Located in Bogotá, C.I. VidFruit produces organic, beneficial and flavorful products derived from exotic Andean fruits, all under the brand EraVie, an organic gourmet product line that the company began developing in 2009. Currently, VidFruit has three product lines: one organic, one natural and one sugar free. Among these lines their customers will find products like premium spreads, chutneys, dressings, infusions, super drinks, syrups, sweeteners and quinoa food supplements. All products are from the Colombian Andes region and free of gluten, GMOs, additives, colorants, and preservatives.

Mission & Vision

VidFruit is fully dedicated to offering excellent products and nurturing business relationships with both customers and providers. The R&D department is constantly expanding the commercial potential and range of its portfolio by keeping up with world trends. The firm aims to surpass their clients' expectations with detailed customer information and products of superior quality. "More fruit: more life" is their product philosophy and corporate strategy.

Lemongrass, Mint, Parsley,
Peppermint, Spearmint

CERTIFICATION

Organic (EU, USDA), ISO 9001,
HACCP, Kosher, Halal

Facts & Figures

AgriPure-Egypt cultivates and processes medicinal herbs and spices primarily for export. The company was established in 2015 by an experienced team of agriculturalists and production managers.

Products & Services

AgriPure-Egypt offers two merchandise lines. These include herbs (mint, melissa, hibiscus and fennel), in the form of seeds and leaves (whole, chopped and ground); and chamomile flowers of different sizes, whole or ground. AgriPure-Egypt's flower heads are excellent in shape and appearance, and considered grade A quality. All ingredients are processed in the company's facilities, according to customer specifications as required.

Mission & Vision

AgriPure-Egypt defines its mission as providing the customer with excellent herbs and spices. The company works only with traceable produce that is fully tested for pesticide residues and its processing facility is organically certified under EU and NOP standards, as well as ISO 9001 (including HACCP).

AL AHRAM HERBS

Egypt Pavilion: Hall 4 | Booth 4-531

Facts & Figures

Al Ahram Herbs Co. is the leading processor and supplier of herbs (including organic herbs), medicinal and aromatic plants, spices and seeds in Egypt. Their factory is situated in Fayoum City, where the majority of Egypt's medicinal plant farms, including organic producers, are located. This allows Al Ahram to exercise control over the growing process.

Products & Services

The company has several product lines, through which it offers high-quality herbs, spices and seeds. Al Ahram is a leading producer of hibiscus in Egypt and the company has a dedicated integrated production line for the production of hibiscus in different forms (flowers, sifted, T.B.C., powder). The company's processing activities include preparation, packaging and exporting.

Mission & Vision

The mission of Al Ahram Herbs is to access international markets and draw international attention to Egyptian plant products. The company maintains constant contact with farmers and suppliers before and during the production cycle, especially the harvest and drying stages, as well as throughout transport to the factory. They also work in collaboration with the EMAP with the goal of upgrading the medicinal and aromatic plants value chain.

CERTIFICATION

Organic (EU, USDA, JAS), ISO 9001

Facts & Figures

Long Life for Organic Herbs & Spices is an Egyptian company that is well-known in the field of planting, processing and exporting herbs. The owners of Long Life were the pioneers of the organic farming movement in Egypt when it began 13 years ago. The company currently maintains 1,100 acres that are registered as organic.

Products & Services

The company offers a wide range of organic herbs and spices, which are all EC-, NOP-, JAS- and ISO-9001-certified, as well as FDA-registered. Long Life supplies to clients a truly high-quality product (Grade A), free of any pesticide residues or insect contamination. The raw material is fumigated with CO₂ before being processed; then the final product is frozen for seven days at a temperature of -20 degrees just before exporting to ensure that products are free of live insect eggs and larvae. The company gives high priority to the cleanliness of its products, which are 99 % pure. Long Life follows all food safety standards and takes care that products are packed in strong sealed packages.

Mission & Vision

Long Life for Organic Herbs believes that organic farming is not just a trend. Its mission is to introduce the world to superior and competitively-priced organic products from Egypt that will contribute to the healthy living of its customers.

ORGANIC LAND FOR IMPORT & EXPORT

Egypt Pavilion: Hall 4 I Booth 4-531

Facts & Figures

Organic Land is a privately owned agricultural products company based in Fayoum, Egypt. The company has been in the market for about 10 years and during this time has worked hard to build a good reputation with customers in North and South America, Canada, Japan and Germany, along with countries in East Asia and the Middle East.

Products & Services

Organic Land is a leading company in the field of agriculture, which manufactures and exports most varieties of herbs, spices and seeds. Soon the company will open a fresh fruits and vegetables department.

Mission & Vision

The Organic Land logo on any product guarantees high quality. The company is further committed to offering customers competitive prices and excellent service. Organic Land believes that achieving customer satisfaction equals success.

CERTIFICATION

Organic (EU, USDA), HACCP

Facts & Figures

Located in the Peruvian Andes at 3,000 meters above sea level in the valley of Tarma, Greenbox was established in 2011 as a producer of exotic fruits. Since that time, the company has been making natural and delicious products to help people live well.

Products & Services

Greenbox produces dehydrated organic products such as goldenberries, bananas and pineapples using processes that maximize their health benefits, promote the social development of farmers, and ensure the environmental sustainability of their fertile valley.

Mission & Vision

Greenbox promotes nutritious products, environmental sustainability and fairtrade principles. The company keeps its products free of additives, artificial flavors and colorants; and it believes in making a positive impact in working with farmers and their families.

IMPORT PROMOTION

Switzerland Global Enterprise (S-GE) works on behalf of the Swiss State Secretariat for Economic Affairs SECO to connect importers in Switzerland and Europe with reliable suppliers in selected partner countries.

OFFICIAL PROGRAMME

We connect

The Swiss Import Promotion Programme SIPPO provides you with access to numerous markets in Africa, Asia, Europe and South America. We offer vast industry expertise and an extensive partner network. We connect you to exporters who offer new market sources.

We build trust

We carefully select the suppliers we work with. It is only after a thorough application process that they are admitted to the programme. They fulfill Swiss and EU standards, and their products are of high quality. Through our matchmaking services at trade fairs, during buyer missions or on study tours, you can get in direct touch with these potential business partners.
